

Texas Fire Chiefs' Association Safety Award Presented to Amarillo Fire Department

On February 22, The Amarillo Fire Department became the first recipient of the Texas Fire Chiefs' Association (TFCA) Award. The department was recognized for the "Team Brian" Safety Program. Team Brian program was started in honor of Firefighter Brian Hunton who lost his life after falling from a moving fire apparatus. The Amarillo Fire Department under the leadership of Chief Ross initiated the program where everyone aboard must buckle their seat belts before a vehicle can move.

It is an honor for Global Traffic Technologies to be the sponsor of the TFCA Safety Award, and we congratulate the Amarillo Fire Department for taking such a positive step in firefighter safety.

Please use the link below to access the TFCA report on their web site.
