Opticom™ Project Management Services

Operator Training

June 2008

Operator Training

Global Traffic Technologies (GTT) will provide authorized vehicle operators with logical, complete training of how to appropriately use the Opticom™ GPS and Infrared Systems.

Customer Prerequisites

- Provide an on-site location for training.
- Provide a list of expected attendees.
- Provide vehicle access for on-site training.
- Provide access to refreshments and meals during training.

GTT Project Management Processes

- Provide a concise, self-contained resource for agency presenters/trainers of general personnel.
- Provide an overview of system functionality.
- Review of the benefits and limits of the Opticom GPS and infrared systems.
- Review safe operating processes and procedural expectations.
- One-half day will be required to accommodate classroom study and hands-on vehicle training.
- All classroom materials will be prepared by GTT and provided at the training session.
- All Opticom vehicle equipment necessary for the operator training will be provided by GTT.
- Obtain training acceptance sign-off from the authorizing agency.
